Watermelon Research and Promotion Plan; Amendments to the Plan, Rules and Regulations, and Rules of Practice for Petitions

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This final rule amends the Watermelon Research and Promotion Plan (Plan) to: eliminate the refund provision of the Plan; assess watermelon importers and add importer member(s) to the Plan; exempt from assessments producers with less than 10 acres of watermelons rather than 5 acres and importers of less than 150,000 pounds; cover all 50 States by the Plan; and revise the criteria for determining the eligibility of producers to serve on the Board. In addition, conforming changes would be made to the rules and regulations issued under the Plan and the rules of practice for petitions.

EFFECTIVE DATE: February 28, 1995.

Sonia N. Jimenez, Research and Promotion Branch, Fruit and Vegetable Division, AMS, USDA, P.O. Box 96456, Room 2535-S, Washington, DC 20090-6456; telephone (202) 720-9916.

SUPPLEMENTARY INFORMATION: This final rule amends the Watermelon Research and Promotion Plan [7 CFR part 1210], hereinafter referred as the Plan. The Plan is effective under the Watermelon Research and Promotion Act, as amended by the Watermelon Research and Promotion Improvement Act of 1993, [7 U.S.C. 4901-4916] hereinafter referred as the Act.

The Department of Agriculture (Department) is issuing this rule in conformance with Executive Order 12866.

This rule has been reviewed under Executive Order 12778, Civil Justice Reform. It is not intended to have retroactive effect. This rule will not preempt any State or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under § 1650 of the Act, a person subject to the Plan may file a petition with the Secretary stating that the Plan or any provision of the Plan, or any obligation imposed in connection with the Plan, is not in accordance with law and requesting a modification of the Plan or an exemption from the Plan. The petitioner is afforded the opportunity for a hearing on the petition. After such hearing, the Secretary will make a ruling on the petition. The Act provides that the district courts of the United States in any district in which a person who is a petitioner resides or carries on business are vested with jurisdiction to review the Secretary's ruling on the petition, if a complaint for that purpose is filed within 20 days after the date of the entry of the ruling.

Regulatory Flexibility Act

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Administrator of the Agricultural Marketing Service (AMS) has considered the economic impact of this rule on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened.

There are approximately 750 watermelon handlers and 5,000 watermelon producers in the United States who are subject to the Plan. There are approximately 140 importers of watermelons. Small agricultural service firms are defined by the Small Business Administration [13 CFR 121.601] as those having annual receipts of less than \$5 million and small agricultural producers are defined as those having annual receipts of less than \$500,000. The majority of watermelon handlers, producers, and importers may be classified as small entities.

The changes in the Plan, rules and regulations, and rules of practice for petitions reflect amendments to the Act. The overall economic impact of these changes is not expected to be significant. Including all 50 States and the District of Columbia under the Plan will have little impact. The producer exemption from assessments is being increased from 5 acres to 10 acres. This change will benefit small producers because it will increase the exemption level, and small producers will not have to pay the assessment. The eligibility criteria for determining if a person is a handler or a producer will not have any economic impact. The elimination of refunds may have some impact on a small amount of producers and handlers who are currently entitled to refunds. There will also be a new burden on importers caused by the assessment of imports, but importers are currently benefiting from the activities which promote watermelons without paying assessments. The research and promotion program is expected to continue to benefit producers, handlers, and importers subject to the Plan by expanding and maintaining new and existing markets. Accordingly, the Administrator of AMS has determined that this rule will not have a significant economic impact on a substantial number of small entities.

Paperwork Reduction

In accordance with the Paperwork Reduction Act of 1980 [40 U.S.C. Chapter 35], the information collection requirements contained in the Plan have previously been approved by the Office of Management and Budget (OMB) and assigned OMB number 0581-0093. There will be a new reporting burden on importers, but the burden has been already approved by the OMB and assigned OMB control number 0581-0093. This action adds no additional reporting burden.

Background

Under the Plan, the National Watermelon Promotion Board (Board) administers a nationally coordinated program of research, development, advertising, and promotion designed to strengthen the watermelon's position in the market place and to establish, maintain, and expand markets for domestic watermelons. In the past, this program was financed by assessments

on all producers, except those persons engaged in the growing of less than five acres of watermelons, and handlers of watermelons. The Plan specifies that handlers are responsible for collecting and submitting both the producer and handler assessments to the Board, reporting their handling of watermelons, and maintaining records necessary to verify their reporting.

U.S. production of watermelons is estimated through the use of U.S. shipment statistics. Shipments of U.S.-produced watermelons totaled about 1,895.6 million pounds in 1993, 7 percent less than in 1992. Imports of watermelons in 1993 totalled 343.5 million pounds, an increase of 12 percent. Therefore, domestic production is about six times as great as the volume of imports.

A referendum was conducted in 1989 to determine if majority of watermelon growers and handlers favored the passage of an industry funded research and promotion program for watermelons. The Plan was intended to collect assessments for research and promotion of watermelons. At that time, any individual not favoring the program could request a refund of the assessments paid by that individual. Procedures to request a refund of assessments were explained in the Plan.

A proposed rule was published in the **Federal Register** on April 14, 1994 [59 FR 17739]. That rule contained the proposed amendments to the Plan, rules and regulations, rules of practice for petitions, and referendum procedures. In order to have the referendum procedures in place for the referendum, the Department decided to separately make final the referendum procedures. A final rule was published in the **Federal Register** on August 30, 1994 [59 FR 44613] containing the referendum procedures. A proposed rule containing the proposed amendments to the Plan, rules and regulations, rules of practice for petitions, and ordering that a referendum be conducted was published separately on August 30, 1994 [59 FR 44646].

The deadline for comments on the proposed amendments published on April 14 was May 16, 1994. Twenty-one comments were received. The comments were addressed in the rules published on August 30, 1994.

A referendum was conducted in November 1994 among watermelon producers, handlers, and importers to determine whether they favor: (1) eliminating the provisions for assessment refunds and (2) implementing assessments on imported watermelons and adding importer member(s) to the Board.

The voting period was from November 1 through November 30, 1994. Ballots were mailed to all known eligible watermelon producers, handlers, and importers on October 14, 1994.

Sonia N. Jimenez and Martha B. Ransom were designated as the referendum agents of the Secretary of Agriculture to conduct this referendum. The Procedure for the Conduct of Referenda in Connection with the Watermelon Research and Promotion Plan were used to conduct the referendum.

The results of the referendum indicate that 61 percent of those who voted in the referendum favor elimination of refunds of assessments under the program and that 81 percent of those who voted in the referendum favor assessing watermelon imports and adding watermelon importers to the Board.

A simple majority of votes was required to approve each of the two changes.

The amendments to the Act authorize an assessment on watermelons imported into the United States and the addition of importer members to the Board. Watermelon imports enter the country primarily during the winter season. Imports of watermelons in 1993 totalled 343.5 million pounds. The assessment rate for imports will be the combined total assessment rate paid by producers and handlers of domestic watermelons. The current assessment rate for producers is 2 cents per hundredweight and for handlers is 2 cents per hundredweight. The combined assessment rate for importers, therefore, will be 4 cents per hundredweight. Assessments will be paid at the time the watermelons enter the country. The collection of assessments on imported watermelons will be expected to generate an additional \$137,400 per year in revenue to the Board. In order to make these changes, this rule amends sections 1210.305, 1210.320, 1210.321, 1210.328, 1210.341, 1210.350, 1210.351, 1210.352, 1210.363, and 1210.364 of the Plan; sections 1210.402 and 1210.405 of the nomination procedures; and sections 1210.515, 1210.518, 1210.519, 1210.521, 1210.530, 1210.531, and 1210.532 of the rules and regulations. In addition, a new section 1210.314 will be added to the Plan.

To facilitate the collection of assessments on imported watermelons, the Secretary proposes that the Customs Service of the Department of the Treasury be designated as the collecting agency for assessments levied on such imports. Other commodity research and promotion programs utilize the Customs

Service as a means of collecting assessments on imported products, and the Customs Service is agreeable to collecting these watermelon assessments. An agreement between the USDA and the Customs Service will be entered into to implement this action. In order to make this change, this rule would amend section 1210.518 of the Rules and Regulations.

The importer representation on the Board will be proportionate to the percentage of assessments paid by importers to the Board, except that at least one representative of importers will serve on the Board if importers are subject to the Plan. This representation will enable importers to participate in developing the Board's programs, plans, and projects, and express their views and concerns on how Board funds are used if imports are assessed under the Plan. Importers will nominate individuals to serve as importer members on the Board, and as required for other members of the Board, two nominees would be submitted to the Secretary for each vacancy. The Act requires the number of importers members to be proportionate to the assessments paid by importers. It is necessary to calculate the number of initial importer members on the volume of imports because imports are not currently being assessed. There are currently 14 producers and 14 handlers on the Board. This is the equivalent of one domestic industry member for every 67.7 million pounds of domestic production. Based on the average annual volume of imports during the last 3-year period (323.1 hundredweight), four importers would be added to the current Board. In order to make this change, this rule would amend sections 1210.320, 1210.321, and 1210.401.

The Act provides for the elimination of refunds of assessments after passed in the referendum. The refund provision has been in effect since the beginning of the program. Refunds have been increasing every year from 9 percent in 1990 to almost 29 percent in 1993. The elimination of the refund provision from the Plan is estimated to provide the Board with additional \$250,000 per year for research and promotion activities. In order to make this change, this rule amends sections 1210.343 and 1210.520.

The Act increases the acreage for exempt producers from "less than 5 acres" to "less than 10 acres" of watermelons. Importers of less than 150,000 pounds of watermelons per year will be entitled to apply for a refund which will be the producer equivalent of the import assessments. The 150,000-

pound exemption level for importers is the level determined to be equivalent to 10 acres of watermelons for domestic producers. In addition, the Act provides that the Board has the authority to establish rules for producers to certify whether they are exempt from the assessments. In order to make these changes, this rule amends sections 1210.341, 1210.342, 1210.518, and 1210.521.

The Act also increases applicability of the law from the 48 contiguous States to the 50 States and the District of Columbia. This amendment would expand the Plan to cover producers, handlers, and importers in Hawaii, Alaska, and the District of Columbia. In order to make these changes, this rule amends section 1210.305 and would add a new section 1210.315.

Section 1647(f) of the Act permits changes in the assessment rate through notice and comment rulemaking. No change to the Plan is necessary to implement this amendment to the Act because section 1210.341 of the Plan states that assessment rates shall be fixed by the Secretary in accordance with section 1647(f) of the Act.

The Act provides that a producer is eligible to serve on the Board as a representative of handlers (1) if a producer purchases watermelons from other producers in a combined total volume that is equal to 25 percent or more of the producer's own production or (2) if the combined total volume of watermelons handled by the producer from the producer's own production and purchases from other producer's production is more than 50 percent of the producer's own production. This provision facilitates the eligibility of producers and handlers to serve on the Board as representatives of their specific group. In order to make these changes, this rule amends sections 1210.321, 1210.363, 1210.368, and 1210.402.

The Act also provides that all future promulgation and amendment referenda do not have to be conducted at Extension Service county offices. This procedure proved to be expensive and difficult to administer. The Act now allows referenda to be conducted by mail ballot which reduces the costs involved in conducting referenda and facilitates a more timely tabulation of the results. In order to make this change, this rule amends section 1210.363.

In addition, the Act changes the criteria for determining the outcome of referenda. The Act previously provided that the Plan should not be effective unless approved by not less than two-thirds of the producers and handlers voting in the referendum, or producers and handlers of not less than two-thirds

of the watermelons produced and handled during the representative period by producers and handlers voting in the referendum, and by not less than a majority of the producers and a majority of the handlers voting in the referendum. The Act now specifies that the determination of the results of a referendum should be on the basis of a simple majority of the producers, handlers, and importers voting in the referendum. In order to make this change, this rule amends section 1210.363.

Furthermore, section 1210.252 will be revised to correct a wording error made during the promulgation of the Plan and section 1210.322 will be revised to delete obsolete language.

In addition, section 1210.325 will be changed to reflect a change in the number of Board members that constitute a majority. This revision reflects the addition of importer members to the Board.

Section 1210.505 will be amended to reflect the fact that the Department issues user fee bills to the Board monthly rather than quarterly.

In addition, miscellaneous conforming changes will be made to sections 1210.251, 1210.302, 1210.328, 1210.340, and 1210.362.

Minor changes are made in this final rule for the purpose of clarity.

After consideration of all relevant material presented, it is found that this regulation, as set forth herein, tends to effectuate the declared policy of the Act.

Pursuant to 5 U.S.C. 553, it is also found and determined that good cause exists for not postponing the effective date of this action until 30 days after publication in the **Federal Register** because: (1) This rule amends the Plan and the Rules and Regulations issued thereunder, in accordance with the provisions of the Act as amended by the Watermelon Research and Promotion Improvement Act of 1993; (2) watermelon producers, handlers, and importers voted in November 1994 to implement two of the major changes; and (3) no useful purpose will be served in delaying the effective date until 30 days after publication of this final rule. Therefore, this final rule will be effective on the date of publication in the **Federal Register**.

The Secretary shall suspend or terminate this Plan at the end of the marketing year whenever the Secretary determines that the suspension or termination is favored by a majority of the watermelon producers,

handlers, and importers voting in such referendum who, during a representative period determined by the Secretary, have been engaged in the production, handling, or importing of watermelons and who produced, handled, or imported more than 50 percent of the combined total of the volume of watermelons produced, handled, or imported by those producers, handlers, and importers voting in the referendum. For purposes of this section, the vote of a person who both produces and handles watermelons will be counted as a handler vote if the producer purchased watermelons from other producers, in a combined total volume that is equal to 25 percent or more of the producer's own production; or the combined total volume of watermelon handled by the producer from the producer's own production and purchases from other producer's production is more than 50 percent of the producer's own production. *Provided*, That the vote of a person who both imports and handles watermelons will be counted as an importer vote if that person imports 50 percent or more of the combined total volume of watermelons handled and imported by that person. Any such referendum shall be conducted by mail ballot.

§ 1210.364 [Amended]

23. Section 1210.364 is amended by removing in paragraph (d) the phrase "and handlers" and adding in its place ", handlers and importers".

24. The subpart heading "Subpart—Procedures for Nominating Producer and Handler Members to the National Watermelon Promotion Board" is revised; and a new undesignated center heading is added to read as follows:

Subpart—Procedures for Nominating Members to the National Watermelon Promotion Board

[Docket No. 94-NM-128-AD; Amendment 39-9146; AD 95-03-09]

Airworthiness Directives; Fokker Model F28 Mark 0100 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD), applicable to all Fokker F28 Mark 0100 series airplanes, that requires inspecting the teleflex cable of the landing gear to detect corrosion, moisture, or improper greasing, and replacing discrepant teleflex cables with serviceable parts. This amendment is prompted by reports of difficulties with the operation of the selector handle of the landing gear when “gear down” is selected, due to improper greasing of the teleflex cable of the landing gear during production. The actions specified by this AD are intended to prevent moisture from accumulating on the teleflex cable, which could result in corrosion of the teleflex cable that could inhibit operation of the selector handle of the landing gear.
